

CREATION ZI-F –
naturally brilliant – brilliantly natural

Creation ZI-F is a tried and tested zirconium dioxide ceramic. It is perfectly suited to veneering any kind of zirconium dioxide framework.
At the same time, the modular materials are also an ideal choice as **add-on materials** for Creation ZI-CT because their firing temperature is about 100 °C lower than the high-fusing zirconium dioxide veneering ceramic.

Creation ZI-F is an **extremely versatile** zirconium dioxide ceramic with high **natural light reflection**, combined with all the material-related advantages of zirconium dioxide.
With the unique effect materials, exceptional colour nuances can also be created rapidly and comfortably – for maximum impact with minimum effort.

Creation ZI-F – natural light dynamics!
